On the 2 cards containing Donkey in the German spelling rules trainer, I believe "and" is not necessary.	2017 or earlier	Not Fixed	Trainer was checked regarding this feedback, but the user feedback was deemed to be was mistaken, irrelevant, not worth fixing or already fixed.	N/A
I am encountering an issue with the German pronunciation/spelling trainer in the form of cards that pop up with either a picture and English name/description underneath or German words with no pictures. I have been working through the Minimal Pairs Deck and found the cards; "Herr" & "Her". However the caption under "Her" is "Here" and the word sounds like "Here". The recording title is called [sound:25-her-B1.mp3], but as I said above, it sounds like "here". I expect the word should be "here". Just a bit confusing if you think you are listening for Her. Reference #'s are 66 & 70. The audio for the Rot-wrote pair is switched for me. I did upload them to AnkiWeb though and all the other cards are fine. Thanks.	1/24/18	Not Fixed	Trainer was checked regarding this feedback, but the user feedback was deemed to be was mistaken, irrelevant, not worth fixing or already fixed.	N/A
